Youth Is Harmed when Mother Virtually Makes Herself Slave

By GARRY C. MYERS, Ph. D. I often think about the mothers hundreds and hundreds of them, who make themselves slaves to their older children, and their hus-

bands, too.

"I have," a mother writes, "three grown up men as my sons and then Sunday comes they like to get up late and I have to serve the breakfasts one after the other, which spoils my whole day. My husband does not believe in helping with housework. He says that's a woman's job and his job is to read the paper on Sunday and not be disturbed.

ers could truly write such a letter, Some might write of daughters as well as sons. Some might refer to vacations, holidays and Saturday as well as Sunday. What about college students on vacation, so many of whom never turn a hand to help the weary mother?

Bad For The Youth The wise mother will let this late-rising youth, as a rule, get his own breakfast. It is bad for the personality of the youth to be pam-

gin early with the child-boy as well as girl-to train him not only not to be a burden to his family but rather to do his part in helping about the home. Then when inducement for pleading and the solved the question of 'turns' in he becomes a husband he will like. choose to help his wife to a reasonwork, with a husband who worked boy before a clock which struck argue with Time. no more hours by day than she the hour and half hour. Egg-Timer Control

Dress super-simply for hot weath-Martin style, Pattern 9664, fills the bill to perfection. It's made in just four main pattern parts, which means that ever an inexperienced dressmaker can stitch it up without difficulty, using the Sew Chart for step-by-step guidance. The buttoning down the front is attractive and convenient for quick dressing and ironing. Your hips seem to melt away, due to clever triangular pieces set-in at either side. Darts above the insets and more darts at the shoulders keep the bodice softness under control. A gay and feminine touch is given by the scalloped edges of the neckline. Choose a fresh, neat print for this "must have" frock.

Pattern 9664 may be ordered only in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3% yards 35 inch fabric.

### A Nutshell Baedeker On Our Newest Outpost

NOW that this nation has sent marines troops and sailors to Iceland, interest is naturally increased among Americans generally regarding that hitherto isolated and almost unnoticed spot on the globe. Some facts about it are in order, especially in view of the many popular

misconceptions that have obtained concerning it. The chief causes of these misconceptions, according to the Cincinnati Times-Star, are the old age, too, as we human beings do. And it is the name the island bears and the fact that maps old age of the spirit, as ours so often is "On them," it says, "it seems a mere dot in the North Atlantic, just below the Arctic Circle. Yet it is almost the size of Ohio, with that age is an "old fellow" indeed. contours rudely resembling our state-even to a northern indentation like that made by Lake not so confident. In the Twelfth and Thirteenth centuries, its literature was perhaps the most brilliant in the world. The habit of story-telling to pass away the long, dark winter days fostered this, and the people are still the greatest of all lovers of oral literature. 'Saga' is their word, the thing itself their

as strange to the most of us.

### A Difficult Assignment Is Handed to Congress

THE DECISION of the administration to ask for specific price control legislation is a victory for the economists who have pointed out that the prevailing policy could not hold prices to fair levels. The price job was assigned like a snowball on a hot stove, to Leon Henderson, who took to the task the too great folly to be even debated

# NOW A 5-DAY WEEK FOR A&P EMPLOYES THROUGHOUT THE NATION

Stores Will Be Open Six Days A Week As Usual But No Employe Will Work More Than Five Days

Two months ago this company tried the experiment in a few castern states of a fiveday work week for our retail store employes. Now we are able to announce that we have adopted the five-day week as our national policy,

. This, we believe, constitutes the first five-day week and the shortest general working hours of any major retail food establishment.

. This shorter work week will be in effect before Labor Day in A&P food stores in thousands of communities throughout the country. It will be extended as far and as fast as possible. Frankly, however, we must recognize that in a few states and a number of cities the introduction of this policy may be delayed or even prevented by state or local labor regulations or local agreements.

 A&P food store employes affected by this policy will work only five days a week although stores will be open six days a week as usual. Their weekly salaries will not be reduced by their shorter work week. Our policy is to continually improve working conditions and salaries as evidenced by the fact that during the past year alone we have been able to make actual wage increases and to pay added compensation to our employes in an amount totaling more than \$4,000,000.

• Many people are utterly astounded at the new low prices for quality foods in ASP Super Markets. They are getting so much more and better food for the same money that they wonder how we can do it. Frankly, it is simply because A&P Super Markets represent a new, more efficient, more economical way of distributing food to the public.

• This new, shorter week is still further evidence that the tremendous savings you can now make in buying groceries, meats and fresh fruits and vegetables in the great, new A&P Super Markets are made possible by savings through efficiency and that no part of these savings comes out of the wages of our employes.

Ton many years it has been a source of pride to us that we have been able generally to maintain the highest average wage scale and the shortest general working hours in a field where long hours have been traditional. Since we first cut the work week eight hours in 1916, there has been a long record of further reduction in hours, increases in wages and vacation

Because our new low prices have resulted in increased patronage, we have been able to further reduce our operating expenses and increase our efficiency and still further improve the working conditions of our employes.

At the same time thousands of families will testify that they buy their foods today at lower average prices in A&P Super Markets than in any group of stores in the highly competitive retail food field. Today, when you spend a dollar in one of our stores, more of that dollar actually purchases food and less of it goes to cover distribution costs and profits than ever before in the history of the food business.

There is no conflict between low prices and good working conditions. We have achieved both by constantly improving methods of bringing food from producer to consumer, cutting out waste and unnecessary handling operations along the dis-

The new A&P Super Markets have made possible savings so astounding that we would not have believed them possible five years ago. This year we are paying the highest wages for the shortest work week in the history of the food business and yet our customers throughout the country will save more than \$50,000,000 on the food they buy as compared to the lowest prices we could charge on the basis of our own operating expense only five years ago.

We are more than ever conscious, in these unusual times, of an obligation to make every possible contribution to the American standard of living. We know that we are making it possible for the average family to buy more good food for the same money, or to buy the same quantity of food for less money.

We are happy to tell you that you can enjoy these savings with the knowledge that the people who serve you in our retail stores are sharing more than ever before in these good things. This means a better standard of living for you and for those who serve you.

This plan will necessitate slight adjustments in store hours which will be announced locally. We respect-

Most Will Be in Class 1-A Because Relatively Few Are Married

WASHINGTON, July 18 (A)-Bu draft machinery brought milita service nearer today for many of the 750,000 21-year-olds whose chan vere largely determined by the Se ctive Service system's second lo

list of numbers drawn last night nearly 6,500 local draft boards, of ficials said. The mailing is expect to start tomorrow.

Some holders of number 196 first drawn, and other numbers hig on the list which determines order in which members of the cla of 1941 will be subject to cons tion, may receive questionnaire: military service are expected September

Because relatively few of tho who registered July 1 have depenents or defenese jobs and their aver age state of physical fitness is prosumably high, the Army is expecte to take a much greater proportion of the 21 year olds than it accepting from the 16,500,000 who

The lottery last night determined the sequence in which they will be liable to service. Under an arrangement worked out at national headquarters, names of the newest registrants will be 'integrated' isting lists with the aim of equalizing the chance of all

If, for example, the contains 100 registrants and there are 10 new registrants, the first sequence number will become order number 11 on the list. Sequence No. 2 similarly would be inserted after the twentieth number old list, and so on.

selling Government Graded and Stamped "U. S. Good" Beef. In the reprinted illustration above, the U. S.

Department of Agriculture describes the grade stamp-

ings and in its booklet says, "It is the highest

grade of beef sold in volume throughout the year in practically all of the main beef-consuming centers."

The characteristics of the lean, the quantity, distri-

bution and characteristics of the fat, and the propor-

tion of edible meat to bone are the principal factors the experts consider for selecting "U. S. Good" Beef.

By purchasing this quality beef at your American Store or Acme Super Market you take the guess-work out of your beef buying,

and what is more, you'll be pleased to note it is priced no higher

CITY SOFTBALL LEAGUE

## Johnson's Homer Wins 6-5 for A's

BOSTON, July 18 (P)—Some devious Frank Frisch strategy went slightly awry today and enabled the Boston Braves to crawl from behind to a 4-3 ninth inning decision over the Pittsburgh Pirates after they had dropped the first contest of a doubleheader, 5-1.

Senators Score

To all of them ne brought nome the great truth that there was starting assignments, but if Baker mothing to be feared from the enemies who were trying to knock their brains out.

But Giebell is strongly convinced the Boston Braves to crawl from behind to a 4-3 ninth inning decision over the Pittsburgh Pirates after they had dropped the first contest of a doubleheader, 5-1.

Senators Score

To all of them ne brought nome the great truth that there was starting assignments, but if Baker mothing to be feared from the enemies who were trying to knock their brains out.

Mr. Flynn spoke this thought with some assurance. He had a winth of the long the first contest of their fourth straight assured of their fourth straight assured of their fourth straight assured for the fourth straight assured of their fourth straight assured for the fourth straight assured of their fourth saturations. The sum of the fourth straight assured of their fou

dew on the eve of battle, Mr. Flynn fourth run of the inning. The box-

young Al Wilkie.

Bama Rowell belted his first offering for a single to right, scoring Masi and Gene Moore clinched it with a sharp single to center, scoring Rowell after the latter stole second.

Ken Heintzelman handcuffed the Braves in the opener, holding them to two scattered hits until the ninth. The scores:
